

Robot Name: _____

Students: _____

Components	1-Not yet Competent	2- Competent	3- Sophisticated
Project Description - Deliverables - Requirements ____ / 10	Insufficient level of detail leaving the reviewer unsure of the intended goal(s), deliverable(s), requirement(s). Little classification of above. Limited user-focus.	Project described adequately, enabling the reader to understand the targets/goals, deliverables, and requirements. CONOPS focused for user-experience and expectations of product/service.	Described in detail what the product/system is intended to do. Very clear goal(s), deliverable(s), client requirement(s). CONOPS standard used.
	0 – 3 points	4 – 7 points	8 – 10 points
Investigation of Relevant Literature -Research ____ / 10	- Limited references with opinion-based discussions. - Insufficient review of project concept and associated technologies.	- In-depth analysis of project concept based on multiple literature sources. - Adequate use of resources to select the most appropriate design approach.	- Comprehensive analysis of project concept based on technical publications. - Significant depth of understanding demonstrated.
	0 – 3 points	4 – 7 points	8 – 10 points
Quality of Design - System architecture - Verification awareness ____ / 20	- Minimal flowcharts, code architecture, electronics, commenting/details. - System architecture described in a vague manner making it difficult to understand the design. - V & V generalized, few quantifiable metrics.	- Design documents included and adequately commented/described. - System architecture described in sufficient detail enabling understanding of the overall design. - V & V plan and metrics are appropriate; targets specific quantities relevant to design.	- Comprehensive design details included, repository log, code commented & CAD. - System architecture details reveal that significant design thought is evident. - V & V matrices discussed in-depth, rationalized, with setups & expected data.
	0 – 6 points	7 – 15 points	16 – 20 points
Project Planning - Work plan - Individual involvement - Budget summary ____ / 20	- Project schedule and individual tasks discussed briefly or not at all. - Minimal mention of budget (hrs & \$). - Lacks comparison to initial charts.	- Project schedule and budget discussed although lacking in detail. (min. WBS) - Most tasks are assigned responsible parties & hours. - Comparison to original proposal charts.	- Project schedule discussed, logical plan for achieving deliverables and clear individual involvement. Gantt chart & budget detailed. - Discrepancies with plan explained & justifiable
	0 – 6 points	7 – 15 points	16 – 20 points
Results and Data - Data collected, outcome - Linkages to V&V, research, planning ____ / 30	- Few simulation or analytical calculations. - Little reflection or discussion of collected data to expected results. - Poor linkages to requirements. - Minor troubleshooting applied/detail.	- Key results presented, although lacking in data analysis and discussion. - Interpretation of data limited to key differences between collected & expected data. - Satisfactorily meets most requirements. - Effective troubleshooting at unit level.	- In-depth data analysis and discussion. Error anticipated/measured/controlled. - Outstanding interpretation of data and utility in V&V. High analytical awareness of unit-to-system impacts. - Clearly links/achieves requirements. Unit & system -level troubleshooting detailed.
	0 – 10 points	11 – 21 points	22 – 30 points
Report Organization ____ / 10	- Aspects of report are too rudimentary for audience/reader. Plots, diagrams and tables are difficult to read or not labeled. - Frequent errors in grammar and spelling.	- Report is neatly written. Plots, diagrams and tables are clear and labeled. - Occasional errors in grammar and spelling.	- Writing style is consistent and professional. Clear and accurate plots, diagrams and tables. All neatly labeled and referenced. - Few, if any, errors in spelling or grammar.
	0 – 3 points	4 – 7 points	8 – 10 points
Total	____ / 100
